

Working together for successful innovation

23rd Oct 2018 | London Build Expo

All Constructing Excellence clubs across the London & South East region are working together to deliver a sell-out seminar on innovation at London Build, the national conference and exhibition that last year attracted 5,000 built environment professionals from across the wider South East region & UK.

The regional CE seminar has great speakers and, as importantly, provides a prominent platform for each CE local club to inform and inspire people to join one or more CE local club. The CE-led seminar kicks off wider the two-day programme of London Build.

Every CE club member is encouraged to attend and to invite others to attend.

Attendance to the seminar and London Build is **free** but you need to register now.

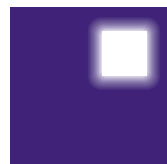

Tea/coffee & croissants will be provided.

Date: 23rd October 2018

Time: 10:00am-12:00pm

Location: London Build Expo, Olympia -
Innovation Summit
